**DEF PAY:** <https://defpaywallet.com>

## PURPOSE

DEF is the native utility token for the DEFswap Finance platform. DEF is a true deflationary token with a use case and a goal of creating financial literacy. DEF tokens can also be used to purchase DEF NFTs directly from the NFT store. Converting DEF token into fiat is not required before making online purchases at most retail platforms like Shopify and more.

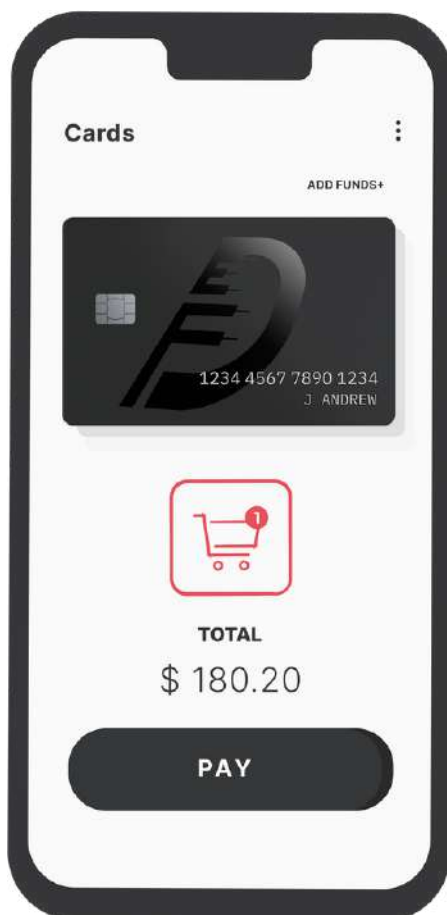

## DEF SWAP FINANCE

DEFswap is a decentralized exchange (DEX) native to the BNB Chain. It is similar to Pancakeswap, which allows users to buy and sell tokens without a middleman. Traders have to pay a fee of around 0.25% of each transaction. The majority of the fee (0.20%) goes to liquidity providers, 0.05% goes to the DEFswap treasury. DEF token cannot be minted. This gives DEFswap an advantage over similar Decentralized Exchanges, which have no hard cap for their native tokens and infinite tokens can be minted. The higher percentage payout by DEFswap to liquidity provider is also an unmatched advantage to generate users.

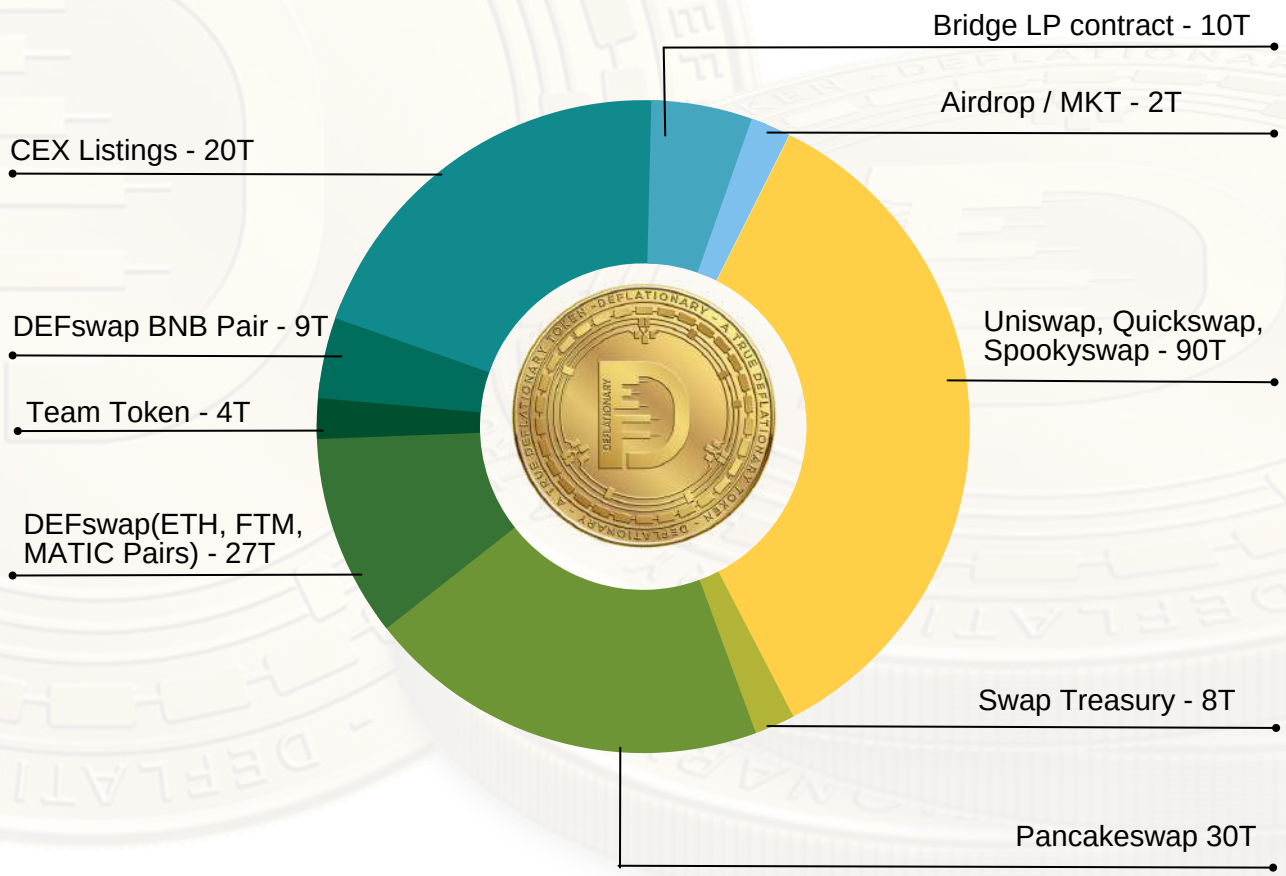

## DEFPAY - CRYPTO PAYMENT WALLET AND DEBIT CARD

DEFpay is your go to wallet for paying with virtual Debit Cards worldwide. Easily Pay for your purchases in stores or online. DEFpay will allow for the integration of a virtual Debit Card to be used for everyday transactions. A physical DEF Debit Card will also be available for use in stores, online and ATMs. Pay with Crypto without the hassle.

# SECURITY

Security is FIRST in any crypto project. If a smart contract is not secure, the entire project is useless. Even when the contract is secure, the project team can still create damage as bad actors. DEF smart contract already passed the security audit and ranks favorably on multiple smart contract address checker platforms. Community safety is also key to making life harder for bad actors while keeping crypto space safer. Always Do Your Own Research by looking for the DEF logo and match it with the contract address. This will help make sure you are interacting with the real token. DEF token is NOT mineable, therefore, no additional tokens will ever be minted

# CONTRACT ADDRESS

Deflationary (DEF) token Smart Contract Address is the same on all available Blockchains

## CRYPTO EDUCATION

The DEF Educational Blog will promote financial literacy worldwide. Educating the general public about past and future of Money, and understanding inflation, is key to the future of financial independence. Blockchain is Decentralized and most Cryptocurrency Holders have a self custody wallet. As the industry grows, it is important that the users understand the big responsibility that comes with being your own bank (BYOB).

## DEF NFT

Quality Non-Fungible Tokens (NFTs) with the most affordable price, is the best way to create value for the NFT market over time. Collectors should be able to collect NFTs without the fear of a future massive price collapse. DEF NFT will focused on creating quality, unique and affordable NFTs for collectors.
